ADAC Eifel Race for the Jan Wellem Cup 8 - 10 June 2012

"An interesting and exciting programme, both on and off the circuit. Along with the racing drivers and teams who will be battling it out for points and trophies, the organising body behind the "ADAC Eifel Race for the Jan Wellem Cup" (8 to 10 June 2012), Düsseldorf's automobile and motorsport club "DAMC 05", is also inviting active participation from owners of classic vehicles, even those not in possession of a valid racing licence. Whether it's to exhibit their pride and joy in the extensive club display area in the Mercedes Arena or to deliver precision-timed performance to within a tenth of a second in a Regularity Test on the northern loop of the Nürburgring - the DAMC 05 has something to offer anyone with "petrol in the blood"."

Dear Club Members

This year, once again, we are offering an exclusive package around the "ADAC Eifel Race for the Jan Wellem Cup". The safety regulations imposed by the German motorsport federation have been tightened up for the GLP Regularity Test, which means that vehicles without a roof, or with only a convertible roof, are no longer permitted to participate. For fans of time-trials, we are therefore offering the Southern Loop regularity test as a "taster" in conjunction with the Nordschleife, or northern loop, experience.

The basis for participation is the package that includes parking, weekend ticket and programme booklet. Any driving packages need to be booked separately.

Please note the necessary conditions when registering.
